

# Subcontractor Prequalification for Beta Engineering

Beta Engineering provides engineering, procurement and construction services for high voltage substations and transmission lines. Working across the United States, Beta brings more than 40 years of experience to the design and construction of high voltage power systems, including substations, switchyards, transmission lines, GIS projects, and FACTS.

If you are interested in working with Beta, please submit your prequalification form for evaluation. Once the form is submitted, you will receive a copy of it at the email address provided on the last page.

[Download a pdf](#) of the prequalification so that you are able to gather all required information before you begin.

## Company Information
